PROJECTS

Fully Responsive Personal portfolio website

May 2024

GitHub: <https://github.com/isisteryell/Personal-portfolio>

Website link: <https://my-education-portfolio.netlify.app/>

- Implemented modern web design principles to create an intuitive user experience across various devices and screen sizes.
- Developed a fully responsive personal portfolio website using HTML, CSS, and JavaScript.
- Designed to showcase personal projects, skills, and achievements in a visually engaging manner.

Glossy style website

March 2023

GitHub: <https://github.com/isisteryell/TECH-OTAKUS-SAVE-THE-WORLD>

Website link: <https://tech-otakus-save-the-world.netlify.app/>

- Conceptualized and developed a visually polished website dedicated to Genshin Impact, an open-world RPG game, using HTML and CSS.
- Designed an interactive platform featuring Genshin Impact characters and their hypothetical pulling rates.
- Integrated accurate character data and simulated pulling rates to provide an immersive experience for visitors.
- Showcased web development skills and passion for gaming through the creation of a dynamic and informative website.
